

Rise Accessibility Quick Checklist

A fast, practical pass through your Rise course before you publish it.

~15 min

19 checks

Before you begin

- ☐ Confirm the course language is set correctly
- ☐ Confirm the course title and lesson titles are descriptive

Repeat for every lesson

Repeat these checks for every lesson in your course, block by block.

LOOK

- ☐ Check that every meaningful image has alt text describing it
- ☐ Confirm decorative images are marked to be skipped
- ☐ Check that text has enough contrast to read easily (aim for 4.5:1)
- ☐ Confirm color is not the only way information is shown
- ☐ Confirm no embedded video or GIF flashes more than 3 times per second

INTERACT

Need help testing with a keyboard? See the [Keyboard Navigation Cheat Sheet](#).

- ☐ Press Tab through the lesson and confirm every interactive block can be reached
- ☐ Confirm a visible outline appears on whatever you tab to
- ☐ Confirm blocks are arranged in a logical, easy-to-follow order

- ☐ Confirm Sorting and Categorize blocks have a working keyboard alternative
- ☐ Check that Knowledge Check answers and feedback are reachable with the keyboard

LISTEN

- ☐ Verify this block's narration has a transcript
- ☐ Verify any video on this block has captions

Before publishing

- ☐ Confirm every lesson has been checked against the list above
- ☐ Review your course outline and confirm no two lessons share the same title
- ☐ Run a free A11yCheck scan to catch anything manual review might miss

Scan this course for free

Takes about five minutes and catches what a manual pass can miss. [Start a free scan](#)

Want the why behind any of these checks? See the Rise Accessibility Guide for explanations, examples, and common mistakes.
